Project Name: HAMILTON COLLEGE
RENOVATION

Project Number: H27-9905-PM

Location: USC Campus, Columbia

Applicable SCBO Notes: 1, 4, & 5

Location at Which Public Notice of Meetings Will Be Posted: USC, Facilities Management Center, 743 Greene St., Columbia, SC 29208

Description of Project: Renovations to Hamilton College (armory & classroom area) in order to accommodate the Undergraduate Admissions Department & to upgrade general infrastructure throughout the building. It is desired to create an impressive entry & well-constructed flow of services for students & parents going through the Admissions process. It is anticipated that, in addition to the areas for students & parents, there will also be need for 50-70 office areas of varying size & type. Design for this project should be under sustainable guidelines with the potential for seeking L.E.E.D. certification. This building is on the National Register of Historic Places & also located in the historic district of the City of Columbia. Services for this project will be handled in a two-phase manner: Phase I to include programming, schematic design & cost estimating. Phase II will involve design services through full construction documents & administration services throughout the construction process. The A/E will be subject to a

performance appraisal as defined in the Manual for Planning & Execution of State Permanent Improvements, Part II

Anticipated Construction Cost Range:

Greater than \$10 million

Description of All Professional Services Anticipated for Project:

Architectural, structural, civil, mechanical, electrical, plumbing, fire protection & landscape architecture services are all anticipated for this project

Information to Be Submitted In

Addition to the Current Standard Federal Forms 254 & 255: Examples of five (5)

completed renovation projects, of which two (2) shall be examples involving renovation work to a building on the National Register of Historic Places. For each project submitted, provide data demonstrating the ability to adhere to project budget & schedule requirements. The Federal government is now using SF330 instead of SF254 & SF255. However, South Carolina law still requires the use of SF254 & SF255, so these forms must be submitted. A PDF copy of these forms is available on the OSE Manual web site, <http://www.state.sc.us/mmo/ose/oseman.htm>

FINAL CONSTRUCTION PLANS FOR REPLACEMENT OF US 76 LYNCHES RIVER BRIDGE

NOTICE TO ALL CONSULTING ENGINEERING FIRMS

The South Carolina Department of Transportation (SCDOT) requests a letter of interest & a current resume of qualifications

from all interested consulting firms experienced in providing engineering services necessary for the preparation of final construction plans for replacement of US 76 Lynch River Bridge in Florence & Lee counties in SC. The proposed project will consist of a decked bulb tee superstructure & precast foundation.

Requested services include, but are not limited to, project management, traffic studies, preliminary plans, public meeting/hearing plans, displays & support & other duties deemed necessary. The work may also include preliminary & final right-of-way plans & construction phase services. The project as proposed must be completed on an accelerated schedule.

In consultant selection, the SCDOT will consider & conduct a comparative ranking of the firms submitting based upon the following:

- Experience, qualifications, & technical competence of the staff proposed for the type of work required, 25%
- Past performance of the proposing firm & subconsultants proposed on similar type projects and/or ability to perform all aspects of services, 20%
- Past performance in utilizing DBEs, 5%
- Familiarity of proposed staff with SCDOT practices & procedures, 15%
- Availability of key staff & the ability to mobilize quickly & meet project schedules, 25%
- DBE utilization plan, 10%

Each proposal is required to indicate the amount of work expected to be paid, on a percentage basis, to each firm identified as providing a service in the proposal.

Consulting firms interested in being considered for these projects should respond with nine (9) hard copies & one (1) copy on CD of the following: letter of interest, current resume of qualifications, a direct response to each of the selection criteria identified above, Forms SF 254 & SF 255 (both forms are to be provided for the primary firm & any

sub-consultants), & any other pertinent information. The preceding, with the exception of Forms 254 & 255, shall be limited to 20 double-spaced pages printed on one side only. The SCDOT selection will be based on information submitted; however, additional information and/or an interview may be required.

All responders must visibly mark as "Confidential" each part of their submission that they consider to contain proprietary information the release of which would constitute an unreasonable invasion of privacy. All unmarked pages will be subject to release in accordance with law. Proposer should be prepared, upon request, to provide justification of why such materials should not be disclosed under the South Carolina Freedom of Information Act, S.C. Code Section 30-4-10, et seq.

Consultants shall comply with Title VI of the Civil Rights Act of 1964. The SCDOT strongly encourages the use of & involvement of Disadvantaged Business Enterprises (DBE) on this project.

The SCDOT has established a maximum hourly rate for firm's employees of \$43.00. The contract will be on the basis of costs plus a fixed fee with a contract maximum or a lump sum basis at the discretion of the SCDOT.

All proposals should be submitted to Wendy Hollingsworth, Office of Contract Services, Room 107, at the South Carolina Department of Transportation, PO Box 191, Columbia, SC 29202 or 955 Park Street, Room 107, Columbia, SC 29201, no later than 2:00 pm, May 22, 2007.

Requests for copies of draft scope of services, existing plans & all inquiries should be directed to SCDOT Bridge Project Engineer Bener Amado, P.E., (803) 737-0181 or amadob@scdot.org.

Description: ENTERPRISE RESOURCE PLANNING (E.R.P.) SYSTEM

The New System Is Envisioned to represent proven state of the art technology employing features that are on-line, real-time & web-based. Workflow is a highly desired capability to work within an integrated environment. The proposed ERP system should be able to interface with the School District of Greenville County's existing maintenance, food service, as well as other State-mandated systems, such as the State student information system & bene-

fits system. It must provide flexibility & ease of maintenance to effectively handle changes in the School District of Greenville County's business processes. Data entry should be available both centrally & distributed to various departments & schools, as appropriate. Input & inquiry screens should be user-friendly with well-developed, easy-to-use documentation & on-line help features.

Overall, the New System Should Provide the user with ready access to all necessary data, have efficient response time, reduce paper flow & be cost-effective to operate. The key to the overall system design is to apply full integration of all components or modules. These components should share information & thereby reduce the need to enter & store redundant information. On-line records management capabilities are also desired to reduce the number of paper files currently generated by the District
